To Whom It May Concern:

The purpose of this letter is to verify that Matteo Nardelli attended the ACM 50<sup>th</sup> Celebration of the ACM A.M. Turing Award in San Francisco, June 23-23, 2017. Since its inauguration in 1966, the ACM A.M. Turing Award has recognized major contributions of lasting importance in computing. Through the years, it has become the most prestigious award in the field, often referred to as the “Nobel Prize of computing.”

Matteo was selected as one of the scholarship recipients from the ACM SIGSOFT community.

ACM Turing laureates joined other award recipients and ACM experts in moderated panel discussions exploring how computing has evolved and where the field is headed. Panels include:

- Advances in Deep Neural Networks
- Restoring Personal Privacy without Compromising National Security
- Moore's Law is Really Dead: What's Next?
- Quantum Computing: Far Away? Around the Corner? Or Maybe Both at the Same Time?
- Challenges in Ethics and Computing
- Preserving our Past for the Future
- Augmented Reality: From Gaming to Cognitive Aids and Beyond

Regards,

Patricia M. Ryan  
ACM Chief Operating Officer
